

ROBERT ALIRIO RONDON CASTRO

SOFTWARE DEVELOPER

About me:

I am a graduate in Administration from Santa Maria University in Caracas - Venezuela. I made a career in the telecommunications industry for almost 9 years from 1999 to 2008, in which I was trained as a specialist in data networks and went through two more positions, one as a telecommunications fault management technician and another as a System Analyst for Data Networks, in this position I lasted almost five years from 2002 to 2006, in which I learned to program, with Microsoft technology, such as VBA and VB. NET C#, ASP.NET, IIS, MS-SQLServer and .NET Framework, in addition to HTML, CSS, Javascript, managing to create a statistical application for the control of Service Level Agreements (SLA) or Service Level Agreement (SLA). (SLA).

Experiences:

Jul-2022 – Enero-2023

Fullstack Programmer – Cajacopi

Development and maintenance of Software and Applications in technologies. **.NET, C#, VB.NET MSSQL SERVER, HTML, CSS, JAVASCRIPT, BOOSTRAP, ANGULAR.**

Feb-2022 – May- 2022

Software Developer – Beysering Consulting:

Analysis, design and development of new software. Maintenance of the current software for the different clients of the company.

Scripting Linux Shell, C Language , oracle PL/SQL, Jira, MSEXcel.

Nov-2021 – Feb-2022

Application Support – Beysering Consulting:

Resolution of second level failures, updating of the necessary data in the different production databases. Support to the project applications. Monitoring of batch processes (Unix-Linux) to ensure their correct operation. Systems or tools used: **Unix-Linux, Oracle PL/SQL, lenguaje C. HTML, Jira, Excel.**

Sept-2020 – Oct-2021 **Junior Software Developer**

Freelancer

Configure working environments in Linux or Windows. Virtualize systems with Vagrant and Virtual Box if necessary. Program the assigned tasks in **C, Python, C#, .Net Framework, bashscrip, javascript, Expressjs, Nodejs, css, Bootstrap, Reacjs, Angular** according to the type of project. To make unit tests to the realized programs, to test its functionality. Configure the servers necessary for the implementation of the projects (deployment). Use of **github** as a collaborative tool in the implementation of the developed software.

Sept-2006 – Ago-2008

Specialist in Telecommunications Network Management

• Econoconsult (Cantv)• Caracas – Venezuela

Management and Provisioning of Data, video and Internet links for Corporate Clients in the following Technologies:

- TDM under NewBridge (Alcatel) equipment.
- 3600 MainStreet Bandwidth Manager.
- Data Terminal Units (DTU's) 27xx Series, 27230, Telindus and Thomson equipment, Low Speed Multiplexers 3630, 2902, 3612, 7350.

Apr-1999 – Sept-2006

Systems Analyst for data networks

• Econoconsult (Cantv)• Caracas – Venezuela

- Telecommunications Indicators (SLA's) of Availability, Maintainability and Reliability of Data and Wireless Network.
- Administrate IIS Server for Product Release and Product Failures for Cantv Data Networks. -
- Administer the System for the Elaboration of Maintenance Results of the Cantv Data Networks.
- Reports and reports on Availability, Maintainability and Reliability of the Cantv Data Network.

Achievements: Development of an intranet website for the publication of statistical reports. Improved the speed of the telecommunications indicator calculation system. Reduction of its implementation from 3 to 1 day. **Tools** IIS, VBA, VB.NET, ADO.NET, MS-SQL SERVER .NET FRAMEWORK.

Others Courses:

CET-Cantv:

- Internetworking Routers & Switches
- Training Program for Commissioning
- Supervision System Airspan AS8300
- Seminar TCP/ IP"
- Seminar Voice over IP"
- Data Transmission.
- Industrial Brigades Training

Cisco Networking Academy:

CCNA Modules I, II, III y IV

UCAB-CET Cantv:

Certified Technological Platforms for Data Networks".

Reto Corporativo:

High Performance Team Building.

Habilidades :

Autodidacta
Trabajo en equipo
Motivación del equipo
Entrenamiento

Idiomas:

Spanish Native)
English (Level B2)

Operating Systems:

Windows y Linux Ubuntu.

Networks:

LAN AND WAN NETWORK ADMINISTRATION
CISCO ROUTERS CONFIGURATION SERIES 2500, 2600, 3600.
Switches series 1800, 1900, 2950

Backend Technologies:

C LANGUAGE, PYTHON, FLASK, DJANGO, DOCKER, HEROKU
GOOGLE CLOUD PLATAFORM, FIREBASE, C#, VISUAL BASIC
SQL SERVER, .NET, NODEJS, EXPRESS., NEST, GRAPHQL

Frontend Technologies:

HTML5, CSS3, JAVASCRIPT, BOOTSTRAP, WORDPRESS, REACT, ANGULAR

Bases de Datos:

MYSQL, MARIADB, ACCESS, FIRESTORE, FIREBASE, MONGODB, ORACLE,
MS-SQL-SERVER
