

ROBERTH ALIRIO RONDÓN CASTRO

SOFTWARE DEVELOPER

About me:

Back again in the technology industry, before I worked with a lot of hardware and data networks, now I'm back in the industry, but on the software side. Developing web applications both backend and frontend, gaining new knowledge about technologies and working relationships. Adapting to change. I love teamwork because you learn a lot and grow interpersonal relationships, focused on achieving the objectives.

Projects:

Tweeter - Nodejs - Firebase: Web CRUD application. You can search for a topic or a term in twitter and it will return the last five tweets with that term and you can also search for a user's time line by their screen_name.

Developed with: NodeJs, Firebase Real Time, and express in the backend and Dynamic HTML 5 with handlebars and bootstrap template engine in the Frontend.

Take a look: [Twitter Node Firabase](#)

History AdvenTour (Projecto Independiente):

It is a GPS-based mobile application that helps tourists, students and everyone to find the historical places of the city in an augmented reality environment where you can find the 3D model of the historical place or character and interact with it in different languages (written or audio) to learn about it, also helping people with reduced vision or hearing.

- **Developed with:** Unity, Firebase, Figma y Vuejs
- See the project in: [History Adventour](#)

Simple_shell (Holberton School):

The shell is the command interpreter in an operating system such as Unix or GNU/Linux, it is a program that executes other programs.

- **Developed with:** Lenguaje C
- See the project in [Simple Shell](#)

Experiences:

Jul-2022 – Actual

Full Stack Programmer – Cajacopi

Development and maintenance of Software and Applications in technologies.NET, C#, VB.NET MSSQL SERVER, HTML, CSS, JAVASCRIPT, BOOTSTRAP

Feb-2022 – May- 2022

Software Developer- – Beysering Consulting:

Analysis, design and development of new software. Maintenance of the current software for the different clients of the company. Scripting Linux Shell, C Language, oracle PL/SQL, MS-Excel.

Nov-2021 – Feb-2022

Application support – Beysering Consulting:

Resolution of second level failures, updating of the necessary data in the different production databases. Support to the project applications. Monitoring of batch processes (Unix-Linux) to ensure their correct

Software Quality Assurance

Backend Technologies:

LANGUAGE C, PYTHON, FLASK, DJANGO, DOCKER, HEROKU
GOOGLE CLOUD PLATAFORM, FIREBASE, C#, VISUAL BASIC
SQL SERVER, .NET, NODEJS, EXPRESS., NEST, GRAPHQL

Frontend Tecnologies:

HTML5, CSS3, JAVASCRIPT, BOOTSTRAP, WORDPRESS, ANGULAR

Data Bases:

MYSQL, MARIADB, ACCESS, FIRESTORE, FIREBASE, MONGODB, ORACLE,
MS-SQL-SERVER

operation. Systems or tools used: Unix-Linux, Oracle PL/SQL, C language. HTML, Excel.

Apr–1999 – Ago-2008

Telecommunications Network Management Specialist

• Econoconsult (Cantv)• Caracas – Venezuela

Achievements: Development of an intranet website for the publication of statistical reports. Improved the speed of the telecommunications indicator calculation system. Reduction of its implementation from 3 to 1 day. Tools IIS, VBA, VB.NET, MS-SQL SERVER .NET FRAMEWORK.

Others Courses:

CET-Cantv:

- Internetworking Routers & Switches
- Training Program for Commissioning
- Supervision Sistem Airspan AS8300
- Seminary TCP/ IP"
- Seminary Voz sobre IP"
- Data Transmission.
- Formación de Brigadas Industriales

Cisco Networking Academy:

CCNA Modules I, II, III y IV

UCAB-CET Cantv:

Certified Technological Platforms for Data Networks.

Reto Corporativo:

Formation of High Performance Teams.

Skills:

- Self-educated
- Team work
- Team motivation
- Training

Idiomas:

- Spanish(Native)
- English (Level B2)

Operating Systems:

Windows y Linux Ubuntu.

Networks:

LAN AND WAN NETWORK ADMINISTRATION
CISCO ROUTERS CONFIGURATION SERIES 2500, 2600, 3600.
Swiches series 1800, 1900, 2950
